Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 15 and 18-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 15 and 18-20 depend from cancelled claim 23 and are therefore indefinite.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 15 and 18-22, 24-27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lafontaine (US 5868735) further in view of Lehmann et al. '019. Lafontaine disclose a method for treating a blood vessel comprising introducing a catheter into the blood vessel, expanding a balloon of the catheter to engage the vessel wall and expanding fluid at a first location. Lafontaine teach all of the limitations of the claims except expanding a fluid at a second location. Lehmann et al. disclose a similar method and teach that it is old and well known to expand a fluid in multiple locations within the device (see figure 25) to allow greater aggregate cooling. Therefore, it would

Art Unit: 3739

have been obvious to one having ordinary skill in the art at the time the invention was made to provide a second fluid injection member on the Lafontaine device to provide a means of allowing greater aggregate cooling.

Response to Arguments

Applicant's arguments filed 8/16/04 have been fully considered but they are not persuasive. Applicant argues that the prior does not teach or suggest the use of a liquid coating at least a portion of an inner surface of a balloon. In column 4 lines 55-57 Lafontaine discloses a liquid coating at least a portion of an inner surface of the balloon. Applicant also argues that circumferentially even cooling does not appear to be disclosed in either of the cited references. Lehmann et al. disclose circumferential even cooling in column 10 lines 1-62.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
